

**Township of Addington Highlands  
COVID-19 Pandemic  
Media Release**

The Community Control Group continues to meet weekly and are working together, along with outside agencies, on our re-opening plans.

As a result of everyone's social distancing we are seeing positive trends which are leading us in our hopes to re-open closed municipal services, as per the guidelines set out by the Chief Medical Officer of Health.

We all need to continue to do our part to flatten the curve and staying home is the way we can all help to achieve this and stop the spread of COVID-19. The safety measures that are in place are working to flatten the curve so we need to continue with social distancing, washing hands frequently and avoiding all non-essential travel for the safety and well being of all of our residents.

Addington Highlands would like to thank everyone working through this pandemic and recognizes their staff as they continue to provide services to the public.

Remember that we're all in this together. Take care, stay safe.

We appreciate your understanding and cooperation as we work to limit the spread of COVID-19.
